12. *Salary during probation.*—Probationers will receive initial pay of Rs. 325 a month. (See Appendix II.)

13. *Period of probation.*—Probationers will be required to qualify by passing the necessary departmental examinations [as well as the riding test (see rule II)] within two years of their selection.

14. *Liability of probationers to removal.*—Any probationer who may fail to pass the prescribed examinations within two years, or be found unfit for Police duties, will be liable to removal from the service.

15. *Promotion after probation.*—No probationer will be eligible for promotion, either acting or substantive, until he has passed the prescribed departmental examinations, including the riding test.

* With a view to prevent parents and guardians from incurring the inconvenience and expense of preparing candidates who may be physically unfit for the Police Service, it is suggested that, before any such preparation is begun, candidates be submitted to examination by the medical adviser of the family, or any other qualified medical practitioner, with regard to the points which are indicated in Appendix III.

It is to be understood that this private examination is merely suggested to lessen the chances of disappointment, and that it is by no means intended to take the place of, or to influence in any way, the official examination.

APPENDIX I.

COMPULSORY MATHEMATICS.

The course is as follows :—

- (1) *Arithmetic*.—The whole of Arithmetic. (The use of Algebraical symbols and processes will be permitted.)
- (2) *Algebra*.—The four simple rules, Fractions, Greatest Common Measure, Least Common Multiple, Factors, Remainder Theorem, Proportion, Simple Equations of one or more unknown quantities with easy problems, Quadratic Equations, with easy problems and theory of Quadratic Equations, Graphs and their applications.

(Candidates should be provided with squared paper.)

- (3) *Geometry*.—Practical and Theoretical Geometry.

The questions on Practical Geometry will be set on the constructions contained in the annexed Schedule A, together with easy extensions of them. All figures should be drawn accurately, for which purpose every candidate should provide himself with a graduated scale, a pair of set squares, a protractor, a compass and a hard pencil.

The questions on Theoretical Geometry will consist of Theorems contained in the annexed Schedule B, together with easy extensions and deductions with numerical illustrations. Any proof of a proposition will be accepted which appears to the Examiners to form part of a systematic treatment of the subject; the order in which the Theorems are stated in Schedule B is not imposed as the sequence of their treatment. In the proof of the Theorems hypothetical constructions will be permitted.

(Candidates will be provided with squared paper.)

SCHEDULE A.

- Bisections of angles and of straight lines.
- Construction of perpendiculars to straight lines.
- Construction of an angle equal to a given angle.
- Construction of parallels to a given straight line.
- Simple cases of the construction from sufficient data of triangles and quadrilaterals.
- Division of straight lines into a given number of equal parts or into parts in any given proportions.
- Construction of a triangle equal in area to a given polygon.
- Construction of tangents to a circle and of common tangents to two circles.
- Simple cases of the construction of circles from sufficient data.
- Construction of a fourth proportional to three given straight lines and a mean proportional to two given straight lines.
- Construction of regular figures of 3, 4, 6 or 8 sides in or about a given circle.
- Construction of a square equal in area to a given polygon.

SCHEDULE B.

Angles at a Point.

If a straight line stands on another straight line, the sum of the two angles so formed is equal to two right angles; and the converse.

If two straight lines intersect, the vertically opposite angles are equal.

Parallel Straight Lines.

When a straight line cuts two other straight lines, if—

- (i) a pair of alternate angles are equal, or
- (ii) a pair of corresponding angles are equal, or
- (iii) a pair of interior angles on the same side of the cutting line are together equal to two right angles, then the two straight lines are parallel; and the converse.

Straight lines which are parallel to the same straight line are parallel to one another.

Triangles and rectilineal figures.

The sum of the angles of a triangle is equal to two right angles.

If the sides of a convex polygon are produced in order, the sum of the angles so formed is equal to four right angles.

If two triangles have two sides of the one equal to two sides of the other, each to each, and also the angles contained by these sides equal, the triangles are congruent.

If two triangles have two angles of the one equal to two angles of the other, each to each, and also one side of the one equal to the corresponding side of the other, the triangles are congruent.

If two sides of a triangle are equal, the angles opposite to these sides are equal; and the converse.

If two triangles have the three sides of the one equal to the three sides of the other, each to each, the triangles are congruent.

If two right-angled triangles have their hypotenuses equal, and one side of the one equal to one side of the other, the triangles are congruent.

If two sides of a triangle are unequal, the greater side has the greater angle opposite to it; and the converse.

Of all the straight lines that can be drawn to a given straight line from a given point outside it, the perpendicular is the shortest.

The opposite sides and angles of a parallelogram are equal; each diagonal bisects the parallelogram and the diagonals bisect one another.

If there are three or more parallel straight lines and the intercepts made by them on any straight line that cuts them are equal, then the corresponding intercepts on any other straight line that cuts them are also equal.

Areas.

Parallelograms on the same or equal bases and of the same altitude are equal in area.

Triangles on the same or equal bases and of the same altitude are equal in area.

Equal triangles on the same or equal bases are of the same altitude.

Illustrations and explanations of the geometrical theorems corresponding to the following Algebraical identities:—

$$k(a + b + c + \dots) = ka + kb + kc + \dots$$

$$(a + b)^2 = a^2 + 2ab + b^2.$$

$$(a - b)^2 = a^2 - 2ab + b^2.$$

$$a^2 - b^2 = (a + b)(a - b).$$

The square on a side of a triangle is greater than, equal to, or less than, the sum of the squares on the other two sides, according as the angle contained by those sides is obtuse, right, or acute. The difference in the case of inequality is twice the rectangle contained by one of the two sides and the projection on it of the other.

Loci.

The locus of a point which is equidistant from two fixed points is the perpendicular bisector of the straight line joining the two fixed points.

The locus of a point which is equidistant from two intersecting straight lines consists of the pair of straight lines which bisect the angles between the two given lines.

The Circle.

A straight line drawn from the centre of a circle to bisect a chord which is not the diameter is at right angles to the chord; conversely the perpendicular to a chord from the centre bisects the chord.

There is one circle, and one only, which passes through three given points not in a straight line.

In equal circles (or in the same circle), (i) if two arcs subtend equal angles at the centres, they are equal; (ii) conversely, if two arcs are equal, they subtend equal angles at the centres.

In equal circles (or in the same circle), (i) if two chords are equal, they cut off equal arcs; (ii) conversely, if two arcs are equal, the chords of the arcs are equal.

Equal chords in a circle are equidistant from the centre; and the converse.

The tangents at any point of a circle and the radius through the point are perpendicular to one another.

If two circles touch, the point of contact lies on the straight line through the centres.

The angle which an arc of a circle subtends at the centre is double that which it subtends at any point on the remaining part of the circumference.

Angles in the same segment of a circle are equal; and if the line joining two points subtends equal angles at two other points on the same side of it, the four points lie on a circle.

The angle in a semi-circle is a right angle, the angle in a segment greater than a semi-circle is less than a right angle, and the angle in a segment less than a semi-circle is greater than a right angle.

The opposite angles of any quadrilateral inscribed in a circle are supplementary; and the converse.

If a straight line touch a circle and from the point of contact a chord be drawn, the angles which this chord makes with the tangent are equal to the angles in the alternate segments.

If two chords of a circle intersect either inside or outside the circle, the rectangle contained by the parts of the one is equal to the rectangle contained by the parts of the other.

Proportion : Similar Triangles.

If a straight line is drawn parallel to one side of a triangle, the other two sides are divided proportionally; and the converse.

If two triangles are equiangular, their corresponding sides are proportional; and the converse.

If two triangles have one angle of the one equal to one angle of the other and the sides about these angles proportional, the triangles are similar.

In any right angle triangle the perpendicular to the hypotenuse from opposite vertex divides the triangle into two triangles which are similar to the whole triangle and to each other.

The internal bisector of an angle of a triangle divides the opposite sides internally in the ratio of the sides containing the angle and likewise the external bisector externally.

The ratio of the areas of similar triangles is equal to the ratio of the squares on corresponding sides.

APPENDIX III.

EXTRACT FROM THE REGULATIONS AS TO THE PHYSICAL EXAMINATION OF CANDIDATES FOR APPOINTMENTS UNDER THE GOVERNMENT OF INDIA.

[These Regulations are published for the convenience of candidates and in order to enable them to ascertain the probability of their coming up to the required physical standard. But it must be clearly understood that the Secretary of State reserves to himself an absolute discretion to reject as unfit any candidate whom he may consider, after hearing the opinion of his medical advisers, to be physically disqualified for the public service; and that his discretion is in no respect limited by these Regulations.]

N. B.—As regards candidates who have been wounded, a candidate who has lost one hand, fore-arm, or arm, or one leg below the knee, might be accepted, but the following classes of wounds must be regarded as disqualifications, viz., (1) Injury to head; (2) Loss of an eye; (3) Loss of leg above or through the knee.

GENERAL PHYSICAL REQUIREMENTS.

I.—A candidate must be in good mental and bodily health, and free from any physical defect likely to interfere with efficient performance of duty.

II.—In the examination of candidates the Medical Board will apply the following table of correlation of age, height and chest girth:—

Age.	Height, without shoes.	CHEST—	
		Girth, when expanded.	Range of expansion.
19 to 20	Inches.	Inches.	Inches.
	62½ and under 65	35	2
	65 ditto 68	35	2
	68 ditto 70	35½	2
	70 ditto 72	36	2
21 and upwards	72 and upwards	36½	2½
	62½ and under 65	35	2
	65 ditto 68	35½	2
	68 ditto 70	36	2
	70 ditto 72	36½	2½
	72 and upwards	37	2½

III.—*Measurement of height.*—A minimum height of 5 ft. 4 ins. is imposed. The candidate will be placed against the standard with his feet together, and the weight thrown on the heels, and not on the toes or outside of the feet. He will stand erect without

* These appointments are not set apart exclusively for members of the Police Department, and the Government reserves discretion to fill them by the selection of any officers who are considered best fitted for them, whether in the Department or outside it.

rigidity, and with the heels, calves, buttocks and shoulders touching the standard; the chin will be depressed to bring the vertex of the head level under the horizontal bar, and the height will be noted in parts of an inch to eighths.

IV.—*Measurement of chest.*—The candidate will be made to stand erect with his feet together, and to raise his hands above his head. The tape will be carefully adjusted round the chest, with its posterior upper edge touching the inferior angles of the shoulder blades, and its anterior lower edge the upper part of the nipples. The arms will then be lowered to hang loosely by the side, and care will be taken that the shoulders are not thrown upwards or backwards so as to displace the tape. The candidate will then be directed to empty his chest of air much as is possible. This is best done by continuous whistling with the lips as long as sound can be produced. The tape is carefully gathered in during the process, and when the minimum measurement is reached, it is recorded. The candidate will then be directed to inflate his chest to its utmost capacity. The maximum measurement will likewise be noted. The girth with the chest fully expanded and the range of expansion between the minimum and maximum will then be recorded.

V.—The hearing must be good.

VI.—The speech without impediment.

VII.—The teeth in good order, *i.e.*, decayed or broken teeth must be properly stopped or crowned, and deficient teeth replaced by artificial teeth, where necessary, for effective mastication.

VIII.—The chest must be well formed; the lungs and heart sound.

IX.—Rupture, hydrocele, varicocele, varicose veins in a severe degree, or other condition likely to cause inefficiency, will disqualify a candidate, unless such condition is cured by operation.

X.—The limbs, feet and toes must be well formed and developed, with free and perfect motion of all the joints.

XI.—A candidate must have no congenital malformation or defect likely to interfere with efficiency.

XII.—A candidate must not be the subject of chronic skin disease.

XIII.—Evidence of previous acute or chronic disease pointing to an impaired construction will disqualify.

REGULATIONS AS TO STANDARD OF VISION FOR THE INDIAN POLICE FORCE.

1. Squint, or any morbid condition of the eyes or of the lids of either eye liable to the risk of aggravation or recurrence, will cause the rejection of the candidate.
2. The examination for determining the acuteness of vision includes two tests; one for distant, the other for near, vision. The Army Test Types will be used for the test for distant vision, without glasses, except where otherwise stated below, at a distance of 20 feet; and Snellen's Optotypi for the test for near vision, without glasses, at any distance selected by the candidate. Each eye will be examined separately, and the lids must be kept wide open during the test. The candidate must be able to read the tests without hesitation in ordinary daylight.
3. A candidate possessing acuteness of vision, according to one of the standards herein laid down, will not be rejected on account of an error of refraction, provided that the error of refraction, in the following cases, does not exceed the limits mentioned, viz.:—(a) in the case of myopia, that the error of refraction does not exceed 2.5 D.; (b) that any correction for astigmatism does not exceed 2.5 D.; and, in the case of myopic astigmatism, that the total error of refraction does not exceed 2.5 D.
4. Subject to the foregoing conditions, the standards of the minimum acuteness of vision with which a candidate will be accepted are as follows:—

Standard I.

Right Eye.	Left Eye.
—	—
Distant vision. V=6-6.	V=6-6.
Near vision. Reads 0-6.	Reads 0-6.

Standard II.

Better Eye.	Worse Eye.
—	—
Distant vision. V=6-6.	V, without glasses=not below 6-60; and after correction with glasses =not below 6-24.
Near vision. Reads 0-6.	Reads 1.

Standard III.

Better Eye.

Distant vision. V, without glasses=
not below 6-24 ; and after correc-
tion with glasses=not below 6-6.

Near vision=reads 0·8.

Worse Eye.

V, without glasses=not below 6-24 ;
and after correction with glasses
=not below 6-24.

Reads 1.

The existence of imperfection of colour sense does not necessarily disqualify, but will be noted on the candidate's papers.

N.B.—In all other respects candidates must come up to the standard of physical requirements laid down for candidates for commissions in the army.

NOTIFICATION.

Minister in charge : The Hon'ble Sir S. N. Banarji, Kt.

No. 2096 Medical.—*The 12th August 1922.*—The following draft of rules, which the Government of Bengal (Ministry of Local Self-Government) propose to make under clause (j) of sub-section (2) of section 101 of the Bengal Village Self-Government Act, 1919 (Bengal Act V of 1919), is published for the information of persons likely to be affected thereby.

2. The draft will be taken into consideration on the 16th August 1922, and any objections or suggestions received by the undersigned through district officers before that date will be duly considered.

Draft rules under the Village Self-Government Act, 1919, regulating the powers and duties of Union Boards in regard to dispensaries.

Opening and Closing of Dispensaries.

1. (1) A dispensary may be opened or taken over by a Union Board with the sanction of the District Board at a meeting, subject to the approval of the Commissioner, and on provision of the necessary funds in the annual budget. It may be closed by the same authority and with the same sanction.

When a dispensary is thus opened or closed by a Union Board, the fact shall be reported by the Civil Surgeon to the Surgeon-General, in order that the dispensary may be added to or struck off from the list in class III. No dispensary in class III in which a Government medical subordinate is employed shall, however, be closed without the sanction of the Government.

NOTE.—Class III dispensaries are those which are vested in local authorities, or guaranteed or maintained by local funds. The fact that such an institution is aided by private subscriptions or receives assistance from Government in the shape of part of the salary of the Medical Officer, grants of medicine or otherwise, should not be regarded as a reason for not classing it as a Local Fund dispensary so long as its existence is ultimately dependent upon local funds.

2. (1) Whenever a dispensary is opened or taken over by a Union Board the fact shall be reported by the District Board to the Surgeon-General, through the Civil Surgeon of the district, with information on the following points :—

- (a) The name of the dispensary, and the date of its opening or being taken over.
- (b) A copy of the proceedings of the District Board together with a copy of the Commissioner's order sanctioning the establishment or taking over of the dispensary.
- (c) Allotment made by the Union Board under the different heads of expenditure for the maintenance of the dispensary.
- (d) A list of the proposed equipment of the dispensary.
- (e) A plan of the building in which the dispensary is or will be located.
- (f) The authority with whom the ultimate responsibility for the maintenance of the dispensary rests.
- (g) The name and qualifications of the medical officer whom it is proposed to appoint as laid down in rule 6.

(2) No dispensary shall be removed from one place to another without the sanction of the District Board, and without giving the Surgeon-General such previous information as will enable him to express an opinion and to sanction or reject the proposal.

3. Applications for grants from the Government in respect of any dispensary shall be submitted to the Government through the District Board, the Magistrate and the Commissioner.

Grants-in-aid by Government and local authorities.

Provided that—

(i) the Government reserve the right to withdraw Government supervision or aid in any case, or at any time, when it may seem desirable to do so.

(ii) no grant may be made by a District or Union Board in aid of any dispensary which has not received the recognition of the Government.

4. The Union Board or the Managing Committee vested with the management of a dispensary shall submit to the Medical Department, through the Civil Surgeon of the district, such reports, returns and accounts as may be prescribed by the Surgeon-General from time to time. Such reports, returns and accounts shall be in such forms and be submitted on such dates as may be prescribed by him. All books, registers and forms which may be necessary for the preparation and submission of such reports, returns and accounts will be supplied by the Government free of cost.

5. Every dispensary is subject to inspection by the Commissioner, by the Civil authorities of the district, by Civil Surgeon, by the administrative officers of the Medical Department, the Chairman and Vice-Chairman of the District Board and any other person who may be generally or specially appointed by the Government, or the District Board for the purpose. No charge will be made for such inspection.

Appointment, leave, etc., of Medical Officers.

6. The Union Board or the Managing Committee vested with the control and administration of a dispensary shall be entitled to appoint their own medical officer subject to the following conditions, viz. :—

- (a) that he is a registered medical practitioner unless the special permission of the Government is obtained to the appointment of an unregistered practitioner;

NOTE.—Applications for special permission should be made through the Civil Surgeon and the Surgeon-General and should be accompanied by a statement showing the name of the candidate, his age and full particulars about his general and medical education and his experience as medical practitioner.

- (b) that he is not a dismissed servant of the Government or is not disqualified for his duties by age, infirmity or character;

6A. In the event of misconduct, insolvency, or professional incompetence by reason of age or otherwise having been proved against a medical officer appointed under rule 6 to the satisfaction of the Medical Department, he shall be removed from his charge on the requisition of the Surgeon-General.

7. Medical officers in charge of dispensaries shall be entitled to such leave as the Union Board or the Managing Committee may grant in accordance with the rules framed by the Union Board. The Union Board or the Managing Committee shall appoint a *locum tenens* duly qualified under rule 6, and shall provide for any expenditure that may be incurred on account of the pay of the medical officer while on leave, and the pay and travelling allowances, if any of his *locum tenens*. In no case shall leave be granted to a medical officer in charge of a dispensary without the cognizance of the Civil Surgeon of the district.

Medical Stores.

8. The indents for medical stores for a Union Board dispensary shall be drawn up by the medical officer of the dispensary and be checked and passed by the Civil Surgeon before the stores are purchased. Every such dispensary shall make its own arrangement for the supply of medicines and medical stores.

Management and Supervision.

9. The management of a dispensary shall be vested in the Union Board with which the ultimate responsibility for its maintenance rests, or in a Managing Committee appointed by the Union Board or Union Boards concerned. The Subdivisional Magistrate and the Subdivisional Medical Officer shall be *ex-officio*

members of the Committee of the subdivisional headquarters dispensary. The members shall be notified by the Commissioner in the *Calcutta Gazette*.

No employee of the dispensary shall be eligible for appointment as a member of the Managing Committee.

10. Every member of a Managing Committee appointed under rule 9 shall vacate his office when the term of office of the members of the Union Board or of the members of any of the Union Boards concerned by which the Committee is appointed expires:

Term of office of members of Managing Committee.

Provided that the term of office of the members of the Committee shall be held to include any period which may elapse between its expiration and the date of the first meeting of a new Committee appointed to take its place.

Members of the Managing Committees appointed under rule 9 shall be eligible for reappointment after their term of three years expires.

11. A member of a Committee appointed under rule 9 may at any time be removed (i) by the District Board on the recommendations of Union Board or Union Boards concerned by which the Committee was appointed or (ii) for any of the reasons for which a member of the Union Board might be removed from office by the authority empowered by law to remove such member.

Removal of members.

12. If any member of the Committee shall be unable to complete his full term of office, or shall avail himself of leave granted by the Committee, the vacancy caused by his resignation, or removal, or death or absence on leave may be filled up by the appointment of another person, and the person so appointed shall fill such vacancy for the unexpired remainder of the term for which such member would otherwise have continued in office, or during his absence on leave, as the case may be.

Filling of vacancies.

13. The Managing Committee shall elect two of their numbers to be the Chairman and the Vice-Chairman respectively, and may also elect another of their number as the Secretary.

Chairman and Vice-Chairman.

14. The Managing Committee shall hold meetings at such intervals as may be necessary not less than once a quarter, to enable them to exercise an efficient scrutiny over the accounts and to enquire into all matters affecting the welfare of the dispensary. One-third of the total number of members shall form a quorum at any meeting.

Meetings of Committee.

15. The Managing Committee shall examine and pass the monthly accounts and shall keep a minute book in which their proceedings shall be recorded. The accounts shall, however, be passed regularly each month by the Chairman of the Managing Committee, or in his absence by the Vice-Chairman. The Managing Committee shall be responsible for the management of the funds of the dispensary. It shall be their duty to see that the guaranteed and promised subscriptions are regularly collected. After defraying the current expenses of the dispensary, the balance at the end of the month, if any, of the donations, subscriptions and interest realised by the Committee shall be deposited by them in the Post Office Savings Bank.

Duties and functions of Committee.

16. When the amount at credit of the dispensary exceeds Rs. 200, the Comptroller-General shall ordinarily be asked to invest the whole or part of it in Government securities, which shall be held in the custody of the Accountant-General, Bengal. The securities shall not be sold and the invested funds shall not be appropriated or used in any way without the sanction of the Government.

Nothing in this rule or in rule 15 shall prevent the Managing Committee from accepting as a contribution to the funds of the dispensary shares or a deposit in a Co-operative Central Bank or money offered with the express instruction that it shall be invested in such shares or shall be so deposited. Neither shall it be necessary to convert shares or deposits so received into Government securities. Contributions in the form of partly paid up shares with a liability attaching to them shall be carefully scrutinized and shall not be accepted without the previous orders of the Government.

Budget Estimates.

17. (1) The Union Board or the Managing Committee shall annually prepare a budget estimate of the probable income and expenditure of the dispensary for the ensuing financial year arranged according to the headings given in annual statement H (B. C. M. D. Form No. 22). The Managing Committee shall submit the budget to the Union Board on a date fixed by that authority. No expenditure shall be incurred in excess of the amounts sanctioned, unless previous sanction has been obtained to either a reappropriation of grants or an additional grant obtained from the Union Board.
